

Important news about your future dental care...

As a valued patient of our practice, I am sure you will have experienced our whole team's dedication and commitment to providing you with the highest level of dental care, and that remains our key priority. For 30 years, I have proudly provided that care under the umbrella of the NHS but will no longer be doing so from **1st May 2026**. **A chronic lack of investment in NHS dentistry by successive governments, coupled with rapidly rising costs and lack of resources, means I am no longer able to provide the level of dental care you have come to expect and remain a viable business.**

What's changing?

Like many NHS practices across the UK, we are having to make crucial decisions to ensure our practice survives and is here to provide your dental care in the long term. As such, I have made the decision to move away from the NHS and will no longer be seeing any patients under the NHS from **1st May 2026**. Instead, I will be here to provide your dental care on a private basis. To do that, I have introduced patient membership plans that **I would request all patients who wish to remain at the practice join**. My patient membership plans help you keep your teeth and gums healthy by allowing you to budget monthly for your dental care, so you can attend on a basis that's right for you. Through longer regular examinations and hygiene appointments, I can spot issues early, potentially saving you from more invasive treatment in the future. **I can only guarantee a place at the practice for those patients who join the membership plan as I have more patients than we are able to accommodate at the practice.**

What do I need to do?

Becoming a member is easy – and only takes two minutes. It is important that you respond quickly to let us know your preferred option as places on the membership plan are limited and will be allocated on a first come, first served basis.
